

Kastalon Custom Polyurethane Components

The superior wear and tear resistance of Kastalon polyurethane will outlast traditionally used components by 4-5 times, drastically reducing maintenance.

Custom Polyurethane Component Parts Made to Your Exact Specifications

From Prototypes to Production Runs

We can do low quantity experimental parts to prove out your concept up to production quantities in the 1000's of pieces.

Engineered to Fit

Our engineers work with the latest CAD software and can assist you from the design and material selection stage and throughout the production process.

Solve Your Application Challenges

Our engineers can work from your specs or reverse engineer a sample to produce a custom part. Whether your design is simple or complex, we can create the parts you need.

Tight Tolerances and Profiles

Kastalon's tight tolerances and specific profiles are done with ease on one of our CNC machines. We are ISO 9001:2015 certified, delivering quality workmanship with each and every part we manufacture.

Meet Your Deadlines

Our dedication to on-time delivery has allowed our customers to increase productivity and reduce downtime.
