

# Kastalon Polyurethane Parts for Tube & Pipe Mills

*The superior wear and tear resistance of Kastalon polyurethane will outlast traditionally used components by 4-5 times, drastically reducing maintenance.*

## Custom Polyurethane Parts for Tube & Pipe Mills and Service Centers

### Reduce Material Handling Damage

Kastalon Polyurethane is non-marking and provides excellent grip and abrasion resistance.

### Replace Rubber Parts

Our polyurethane materials can replace rubber components in most applications and can last 4 to 5 times longer.

### Solve Your Application Challenges

Our engineers can work from your specs or reverse engineer a sample to produce a custom part. Give us your toughest challenges and we will work with you to provide a better solution.

### Tight Tolerances and Profiles

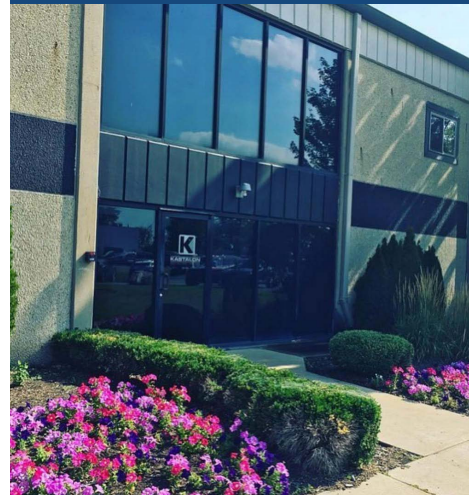

Kastalon's tight tolerances and specific profiles are done with ease on one of our CNC machines. We are ISO 9001:2015 certified, delivering quality workmanship with each and every part we manufacture.

### Meet Your Deadlines

Our dedication to on-time delivery has allowed our customers to increase productivity and reduce downtime.
